Purchase Ashampoo Core Tuner 2 by Ashampoo

[Cheap Price] **Ashampoo Core Tuner 2** Full Version

Are you familiar with this? You would like to watch a movie and it is jerky. That is because the computer is busy handling several tasks simultaneously and the processor power is not used in the best possible way. Computers aren't fun like this! When several processes are executed at the same time it is highly important for high-end computers as well as older PCs that the processor power is distributed and used efficiently, in order to ensure a smooth workflow. Ashampoo Core Tuner 2 enables you to use the complete power of your processor in the best possible way, while it hardly uses up any resources itself thanks to driver technology. The optimization of single processes can take place fully-automatic or manually. Furthermore, the new Live Tuner accelerates the start of new applications by instantly assigning all available resources, while the system is already working to full capacity. Advanced users can also easily create own profiles for individual purposes, for example for playing computer games. With Ashampoo Core Tuner 2 you will quickly get a clear overview of the workload distribution of the whole system. In addition, the program offers detailed ratings and functions for adjustment of services and autostart entries. Take control of the processes on your system and experience optimal processor performance thanks to Ashampoo Core Tuner 2!
