Purchase Blackmagicdesign DaVinci Resolve 7 by Blackmagicdesign

[Cheap Price] **Blackmagicdesign DaVinci Resolve 7 Full Version**

DaVinci Resolve Software DaVinci Resolve for the Mac is the world's most advanced color correction as a software only solution compatible with high performance GPU cards and off the shelf control panels such as the Tangent Wave , , . Includes 32 bit float YRGB processing for all effects, power windows, tracking, primaries and secondaries and 3D object tracker. You get the a full copy of DaVinci Resolve with no features disabled, so you get a full system, with single GPU performance. Because DaVinci Resolve Software is a full DaVinci, as GPUs on Mac get faster, your DaVinci Resolve will get faster. Add supported third party control surfaces and video I/O, devices to let your system grow! Great first color correction solution when you're working heavily in SD and HD!
