[Cheap Price] **NewBlue Titler Pro** Full Version

Improve Your Workflow – The Titler For The Professional Editor's Schedule NewBlue Titler Pro is designed to improve and simplify your workflow; it's the titling solution designed with the professional editor in mind. No need to outsource your title graphics - Titler Pro gives you quick-access, sophisticated animations with professional styles, effects and transitions. Titler Pro plugs directly into your NLE giving you an intuitive user interface that blends seamlessly into your normal workflow with no need to switch back and forth between applications. Faster with GPU-accelerated effects and transitions Titler Pro lets you work in real-time, preview styles with one click, playback your sequences quickly and render titles in record time. NewBlue's GPU-accelerated effects and transitions use your computer resources efficiently, freeing up processing power for everything else in the background. Make quick adjustments in real-time and customize on the fly The NewBlue sliders are uncomplicated and designed to allow quick adjustments in real-time so you can customize on the fly. The Drag-n-drop animations, professional style templates, effects and transitions, means you can instantly create animations for same-day edits. You can utilize our base of professionally-designed templates or quickly create and customize your own. The ability to save custom presets means you can use your custom template at a later date. **Create Rich, Sophisticated Animations** When it comes to designing titles you're invariably going to be doing a lot of animating and part of that process includes creating timelines, keyframing, and using motion graphics in a lot of different ways. Titler Pro is set up to handle the complexities of animation sequences with both style and grace. With the ability to import raster-based graphics onto your animations and to apply organic raster effects, you can get stunning 3D titles. **Vast Array of High-Quality NewBlueFX Effects and Filters** Titler Pro comes with a set of rich styles, effects and filters for you to start creating stunning titles. Plus, editors can easily expand their library directly from Titler Pro with access to hundreds of additional premium GPU-accelerated NewBlueFX effects and filters available for a free trial (coming soon). NewBlueFX offers select bundles such as the Creative Bundle and Essentials Bundle, or stock up on all our plugins for the maximum value on our premium GPU products. Used by industry professionals worldwide, NewBlueFX are famous for their quick, easy controls, the ability to save custom styles, and an abundance of presets.
