[Cheap Price] **pbEncom Discover 2013** Full Version

The 2013 edition of the pbEncom Discover introduces powerful re-projection support for both large raster and ECW imagery, ensuring projection continuity through all of your GIS data types. Data digitisation is now even easier with many new capabilities, such as dynamic structural symbols, grouped pick lists and multi-table support. Important note! Other instance of MapInfo software will be uninstalled. So it will be impossible to use MapInfo as separate product. You'll can use MapInfo only in conjunction with Encom Discover module.
