## **Purchase SigmaPlot 12.5 by Systat Software**

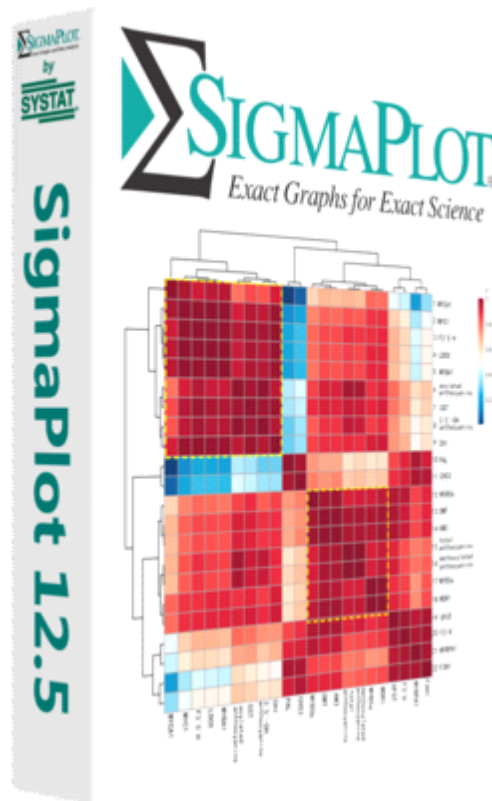

[Cheap Price] **SigmaPlot 12.5** Full Version

SigmaPlot software helps you quickly create exact graphs. With the new Graph Properties user interface, you can select the property category in the tree on the left and then change properties on the right. The change is immediately graphed, and if you move your cursor off the panel, it becomes transparent, so you can see the effect of your changes without leaving the panel. The select left and change right procedure makes editing your graphs quick and easy.

SigmaPlot takes you beyond simple spreadsheets to help you show off your work clearly and precisely. With SigmaPlot, you can produce high-quality graphs without spending hours in front of a computer. SigmaPlot offers seamless Microsoft Office® integration, so you can easily access data from Microsoft Excel® spreadsheets and present your results in Microsoft PowerPoint® presentations.
